**VJS CONSTRUCTION SERVICES ANNOUNCES SITLALIC AGUILAR
HAS JOINED THE FIRM AS AN ESTIMATOR**

PEWAUKEE, WI (September 22, 2017) – VJS Construction Services (VJS), a general contracting, construction management, and design build firm located in Pewaukee, is pleased to announce Sitallic Aguilar has joined our team as an Estimator.

In this role, Sitallic will be responsible for analyzing blueprints, specifications, proposals and other documentation as well as preparing time, material, labor, equipment and specialty cost estimates for assigned projects. Sitallic will also be consulting with clients, subcontractors and architects to discuss and formulate estimates and resolve issues.

Prior to joining VJS, Sitallic worked as a Project Engineer for another general contractor as well as helped in the estimating department at this firm. What drew her to the opportunity at VJS was that many of the projects VJS has constructed are within the community where Sitallic's family and friends are located or are directly affected by these projects.

In Sitallic's spare time she enjoys running, kickboxing and spending time with her family and friends.

Founded in 1947, VJS Construction Services is one of Wisconsin's top ten general contractors, construction managers, and design builders. The company specializes in educational facilities, senior living facilities, libraries, sophisticated religious structures, corporate office buildings, manufacturing facilities, and healthcare facilities.
